PROBLEM STATEMENT

Gas Leakage Monitoring & Alerting System For Industries

Software Required:
  Python IDLE

System Required:
RAM-Minimum 4GB Processor-Min. Configuration OS-Windows/Linux/MAC.

Gas Leakage Monitoring & Alerting System for Industries has all the features as explained below:

Features:

- This project helps the industries in monitoring the emission of harmful gases
- In several areas, the gas sensors will be integrated to monitor the gas leakage
- If in any area gas leakage is detected the admins will be notified along with the location
- In the web application, admins can view the sensor parameters.

Technical Architecture:
